

WHAT'S AT STAKE FOR ACCESS TO MEDICATION ABORTION CARE?

If the Supreme Court upholds the Fifth Circuit Opinion in *Alliance for Hippocratic Medicine v FDA*, access to medication abortion care could be put under lock and key, rolling back decades of progress made to expanding access for those seeking abortion care.

Mifepristone has over 20 years of data and real-world evidence of safety.

Medication abortion accounts for more than half of all abortions in the U.S.

CURRENT FDA APPROVED REGIMEN

vs.

2000 FDA APPROVED REGIMEN

Available up to 10 weeks	→	Available up to 7 weeks
Take 1 pill of mifepristone	→	Take 3 pills of mifepristone
Allows telehealth appointments	→	3 in-person clinic visits required
Pick up Rx at pharmacies	→	Pick up only from doctors

The Supreme Court must protect access to medication abortion care.
